

A guide to Using the '50 Things' App

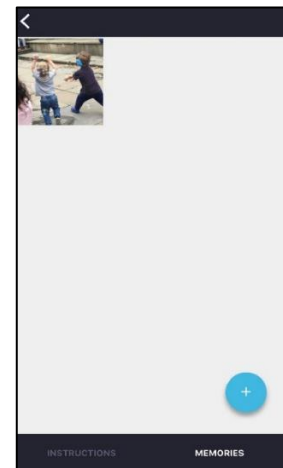

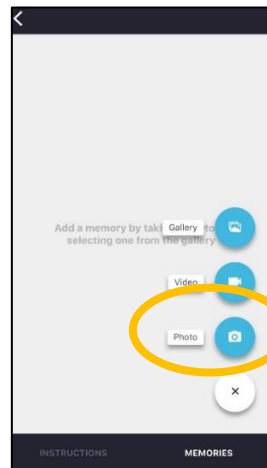

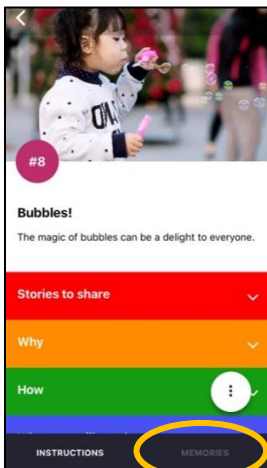

Choosing an Activity

- 1) Scroll through the activities to choose which one you want to do
- 2) Click on the one you want to do to open the activity.
- 3) Click on the arrows to open up each section to learn more about the activity.

Add memories

- 1) Click on 'Memories' at the bottom of the page
- 2) Click on the plus sign and choose where you want to take your photo from – either from your album or take a video or photo live. (You will need to allow the app to access your camera and camera roll)
- 3) You will then see your photo on the page (no one else can access this photo)

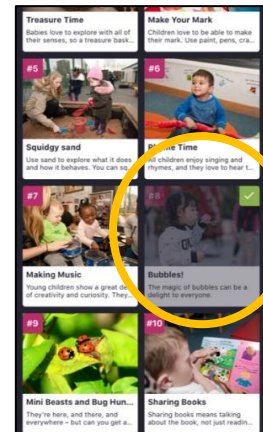

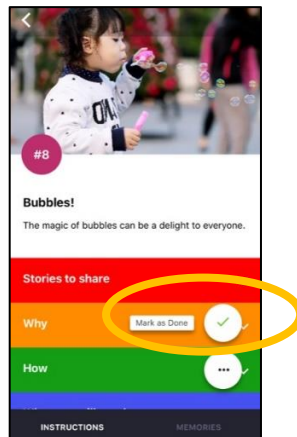

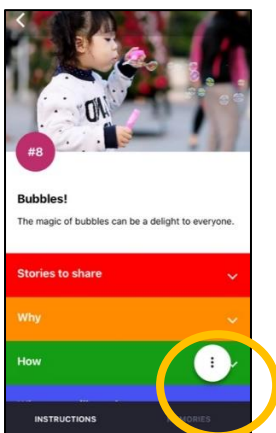

Share your memories with friends or on social media

- 1) Click on the photo you want to share
- 2) Click Share (in the right hand top corner)
- 3) Click Share
- 4) Decide how you want to share the photo or copy the photo.

Marking an activity as completed

- Once you have done an activity you can mark it as completed.
- 1) Open the activity following the instructions above
 - 2) Click on the 3 dots
 - 3) Click mark as done
 - 4) When you return to the main activity page this activity will be shaded out with a green tick attached.
 - 5) Children often like to repeat things; you can, therefore, always access and add more memories to an activity once it is completed.

Thank you for being part of this exciting project!!
